## Summary of Qualifications

Full Stack development and consulting with experience using a wide array of technologies to create actionable insights and grow software development initiatives leading to profitable business decisions.

## Core Competencies

- Data Visualization applications within R Shiny, Streamlit, Django and Flask
- DevOps Tools include Git, Docker, Kubernetes
- Statistical analysis with ML techniques including with H2O, Torch & Tensorflow
- Agile and Project Management in Github, Azure DevOps and Jira
- Data Analysis tools include R + Python
- Data Storage Tools include Azure Blob, AWS S3, Relational Databases, + Graph QL
- CI/CD Tools include Jenkins + Github Actions
- JavaScript Frameworks: React, Svelte, Vue and Angular
- Cloud experience with AWS, Azure & GCP

## Projects

- Windows 98 Themed Portfolio deployed on **Netlify** written in vanilla **JavaScript** [Visit Windows98 App](#)
- **GoLang** app with a minimalistic design on **Azure Container Services** [View @majesticcoding](#)
- Booking & Payments app written in **Streamlit** enabled with **Stripe Payments API** [Visit Stripe App](#)
- **Docker Compose** Deployment of DIY **Home Assistant smart automation** [Visit Home Assistant Docs](#)
- **SaaS Startup** deployed on **Vercel** written in **React** with **Supabase** Authentication [Visit ReactJS App](#)
- **FastAPI** portfolio with **Jinja** and **DockerHub** [Visit FastAPI App](#)

## Experience

**Guidehouse**  
**Technical Lead**  
**Managing Consultant**

**Atlanta, GA**  
**March 2023 to Present**  
**March 2022 to March 2023**

As lead on the Analytics & Infrastructure (AIA) Team, I was promoted at 1 year by coding developer tools for consultants producing millions in annual client revenue.

- Deployed custom *FastAPIs* for automation services on platformss such as *Github, Okta, Jira, Jenkins & Posit Connect* containers for *DevOps KPIs* of Infrx team profitability.
- Updated 30+ *ML Python* applications primarily with *Torch & TensorFlow* into *Kubernetes* on *AzureKS*.
- Developed data management schema for energy sector for Electric Vehicle & Solar in *Azure Blob* via custom R+Python packages.

**Pennsylvania State University**  
**Full Stack Developer**

**Part-Time & Remote**  
**May 2021 to December 2021**

Organized and cleaned years of Graduate Student code for a cohesive module set of *R shiny* code to provide professors the ability to upload and assess students in real time with data storage in *AWS S3*.

**WarnerMedia**  
**Full Stack Developer**

**Part-Time & Remote**  
**April 2021 to November 2021**

Coded *R Shiny apps, plumber APIs, and data pipelines* to provide analyst with quality data and validation checks for accurate reporting all using *R & Python* with housing data in *Snowflake + Azure Blob*.

**McAfee**  
**R Shiny Developer**

**Remote**  
**November 2020 to March 2021**

Contracted to scale and build shiny apps for massive data distillation for model building for enhanced cross sell of products in the McAfee portfolio via optimization of web effectiveness.

**Coca Cola Beverages Florida**  
**Full Stack Developer**

**Remote**  
**August 2020 to November 2020**

Contracted to redesign and scale an R Shiny app for a pricing application to existing and potential merchants of Coca Cola Products in Florida.

- Developed predictive application with a boosted decision tree model using Azure ML API predicting the potential revenue of prospective Coca Cola customers with outputs used to construct contracts with merchants.

**Ovintiv (formerly Encana)**  
**R Shiny Developer**

**Denver, CO**  
**August 2019 to April 2020**

Contracted to build models and apps used to determine the best geographies to drill for oil and gas for predictive on well output, the associated costs and investment, ROI, Tax and related financial metrics.

**EverCommerce**  
**Data Analytics Consultant**

**Denver, CO**  
**November 2018 to July 2019**

Established a data analytics function for the parent company of over 30 subsidiaries with Software as a Solution applications for various verticals in the Small/Medium Business space.

- Worked with KPMG to conduct M&A due diligence, calculating key metrics to assess acquisition candidate performance prior to purchase , including a 5-year forecast of Customer Lifetime Value and Cost of Customer Acquisition.

**Total System Services, Inc.**  
**Senior Market Research Analyst**

**Denver, CO**  
**February 2018 to November 2018**

Led the development of a newly formed Market Research/Analytics Department within the Merchant Services Division for one of North America's largest payment processors.

**SKIM Group**  
**Analyst**

**Atlanta, GA**  
**January 2017 to February 2018**

Worked with clients Unilever, AT&T, and Mercury Marine to determine strategies for product development innovation, product pricing and media campaigns using consumer decision behavior analysis on 8 projects generating over \$500,000 in revenue.

**Vizeum, Division of Dentsu Aegis**  
**Analytics Specialist**

**Playa Vista, CA**  
**June 2016 to October 2016**

**Nielsen**  
**Intern/Analyst**

**Glendale, CA**  
**December 2015 to February 2016**

***Education***

**Clemson University**

**Clemson, SC**

M.S. in Marketing, Market Research concentration

August, 2015

**Berry College**

**Mount Berry, GA**

B.S. Psychology, Minor in History

May, 2014

*Berry Men's Soccer Team, 4-year letter winner*
