Recent Experience

Guidehouse
Technical Lead
Managing Consultant

Atlanta, GA
March 2023 to Present
March 2022 to March 2023

As lead on the Analytics & Infrastructure (AIA) Team, I was promoted at 1 year by coding developer tools for consultants producing millions in annual client revenue.

- Implemented *FastAPIs* for automation leveraging Web Apps and Apis across platforms of *Github, Okta, Jira, Jenkins & Posit Connect* containers to increase Infrastructure team profitability.
- Updated 30+ *ML Python* applications primarily with *Torch & TensorFlow* into *Kubernetes* on *AzureKS*.
- Developed data management schema for energy sector for Electric Vehicle & Solar in *Azure Blob* via custom R + Python packages.
- Deployed automation via *FastAPI* to connect *Jira* tickets to *Service Now* requests for efficient developer requests internally.

Pennsylvania State University
Full Stack Developer

Remote
May 2021 to December 2021

Organized and cleaned years of Graduate Student code for a cohesive module set of *R shiny* code to provide professors the ability to upload and assess students in real time with data storage in *AWS S3*.

WarnerMedia
Full Stack Developer

Remote
April 2021 to November 2021

Coded *R Shiny apps, plumber APIs, and data pipelines* to provide analyst with quality data and validation checks for accurate reporting all using *R & Python* with housing data in *Snowflake + Azure Blob*.
