- ❖ **JavaScript**: React, Svelte, Vue, Next
- ❖ **Cloud**: AWS, Azure, GCP

Certifications

Azure	AWS	Google Cloud
[Azure Cloud Intro](#)	[AWS Cloud Intro](#)	[GCP Core Infrastructure](#)
[Azure Serverless Applications](#)	[AWS Cloud Technical Essentials](#)	[GCP Production Machine Learning](#)

Experience

Guidehouse   **Atlanta, GA**
Technical Lead   **March 2023 to Present**
Managing Consultant   **March 2022 to March 2023**

As lead on the Software & Engineering Team, I code developer tools for selling management consulting services within the Energy and Government sectors.

- Standarized *30+ ML Python* applications primarily with *Torch & TensorFlow* into *Kubernetes* on *AzureKS*.
- Deployed ETL Notebooks, APIs and Web Apps with Gitbacked features in Posit Connect to automate consultant analysis for faster delivery and automated QC.
- Developed FastAPI of developer platforms within the organization from APIs of Jira, Service Now and Github to help automate deployment workflows internally.

Pennsylvania State University   **Remote**
Full Stack Developer   **May 2021 to December 2021**

Organized and cleaned years of Graduate Student code for a cohesive module set of *R shiny* code to provide professors the ability to upload and assess students in real time with data storage in *AWS S3*.

WarnerMedia   **Remote**
Full Stack Developer   **April 2021 to November 2021**

Coded *R Shiny apps, plumber APIs, and data pipelines* to provide analyst with quality data and validation checks for accurate reporting all using *R & Python* with housing data in *Snowflake + Azure Blob*.

McAfee   **Remote**
R Shiny Developer   **November 2020 to March 2021**
Contracted to scale and build shiny apps for massive data distillation for model building for enhanced cross sell of products in the McAfee portfolio via optimization of web effectiveness.

Coca Cola Beverages Florida   **Remote**
Full Stack Developer   **August 2020 to November 2020**

Contracted to redesign and scale an R Shiny app for a predictive application with a boasted decision tree model using Azure ML API predicting the potential revenue of prospective Coca Cola customers with outputs used to construct contracts with merchants.

Ovintiv (formerly Encana)   **Denver, CO**
R Shiny Developer   **August 2019 to April 2020**

Contracted to build models and apps used to determine the best geographies to drill for oil and gas for predictive on well output, the associated costs and investment, ROI, Tax and related financial metrics.

EverCommerce   **Denver, CO**
